# KÄHRS OF SWEDEN. QUALITY IN WOOD SINCE 1857

## KAHRS OF SWEDEN

Kährs of Sweden is the oldest wood floor manufacturer in the world still in operation, with a history that dates back to 1857. It is also the most innovative, with a history of wood floor inventions and innovations that span decades. They include the world's first patented multi-layer wood floor in 1941; the world's first water-based finishing system in 1984, and the first ISO 14001 environmental management certification in 1997.

## GAP FREE

When Kährs launched Woodloc® in 1999 – the first glue-free joint system in the world – it revolutionized the wood flooring industry. This ingenious joint system locks the boards together mechanically, creating a completely gap-free floor.

## SEASONS GREETINGS

Compared to a traditional solid wood floor, our patented construction is 75% more stable. A Kährs floor resists warping, buckling and cracking, even as temperature and humidity change throughout the seasons. The construction creates a perfectly balanced wood floor that can tolerate even the most dramatic climate changes. This also makes our wood floors the perfect partner for underfloor heating.

## MORE THAN A BEAUTIFUL SURFACE

Whichever surface treatment you choose for your Kährs floor, you can be sure that it will both enhance and protect the natural beauty of the wood. All Kährs surface treatments are naturally free from solvents, formaldehyde and isocyanate. They also make the floor really easy to clean and maintain.

## WWW.KAHR.S.COM

## ENVIRONMENTAL INFORMATION

We have gathered a substantial amount of information relating to our products, our environmental policies and the latest environmental reports.

## SAMPLE ORDERING

When you've identified a product for a specific installation, just complete the sample order form and it will be sent to you. For final evaluation nothing compares to a real floor sample.

## TECHNICAL DOWNLOADS

Within the Download Library you will find a wide variety of documents covering Technical Specifications, Installation and Maintenance Guides, Environmental Certificates, etc.

## REFERENCE CASE STUDIES

The reference area within the site is continuously updated with images and facts. This will provide you with further inspiration.
