

Ecosmart Bamboo Worktops

FINE BAMBOO FLOORING, COUNTERTOPS & PANELS

Strand Bamboo Table Top - Chestnut
Portfolio Collection Flooring - Paris Black

Our bamboo worktops are a beautiful and durable alternative to traditional hardwoods for counters, kitchen islands and table tops. These furniture-grade products are made with rapidly renewable Optimum 5.5[®] Moso bamboo, a naturally bacteria-resistant material.

Choose from three fabulous styles ideal for any décor.

Parquet Bamboo Butcher Block - A durable, bacteria-resistant alternative to traditional maple butcher blocks—ideal for food preparation.

Traditional Bamboo Countertop - Available with either a Vertical Grain Caramelized or Natural face to provide a beautiful visual accent to cabinets, millwork or furniture in any interior design. These countertops are perfect for kitchen and bathroom applications because our bamboo is naturally bacteria-resistant and durable — 25% harder than red oak.

Strand Countertops - Made with our proprietary Xcora[™] technology, are extremely durable—154% harder than red oak—bacteria-resistant and ideal where hardwoods are traditionally used.

Also ideal for commercial use requiring a durable work surface such as store fixtures, shelving, conference tables and reception desks. Teragren[®] manufactures fine bamboo worktops to industry-leading standards for quality and environmental safety. Our specifications are proven and exacting, with water-based, solvent-free finishes.
