

Directions for Use:

1. Vacuum and clean the floor using PALLMANN Hardwood Floor Cleaner (see General Cleaning).
2. Shake Magic Oil Care well before using. It is recommended to ventilate the work area to ensure proper drying.
3. Dilute 1 oz. PALLMANN Magic Oil Care with 10 oz. of water in a spray bottle. Spray mist the floor to achieve an even layer of Magic Oil Care over an area that can be mopped in a few seconds. Using a dampened microfiber mop, spread the misted area, working with the grain of the wood, and allow to dry.

Continue the procedure until the entire floor is uniformly covered. Be careful not to leave heavy lap lines or pooling.
4. Clean tools after use with water.

Magic Oil Floor Maintenance Schedule

WEEKLY: General Cleaning/Dusting

Using the PALLMANN Hardwood Floor Dusting Pad, lightly dust the floor to remove large debris. A vacuum may also be used for large areas. The PALLMANN Hardwood Floor Cleaner can be used with the PALLMANN Microfiber Pad on a weekly basis or as needed to thoroughly clean your floors. Clean stubborn spots, spills, and shoemarks by spraying the PALLMANN Hardwood Floor Cleaner directly on the areas.

MONTHLY: Inspection

Inspect protector pads on furniture, and ensure that all walk-off mats are in proper locations. Visually inspect the wood floor for traffic patterns that may be present. If a traffic pattern is noticeable, it may be time to consult a wood flooring professional to discuss recoating options.

YEARLY: Magic Oil Care

Frequency of application of Magic Oil Care will be dependent on the floor's location and level of use. **Magic Oil Care is not intended as an every day floor care product** but only for occasional use to maintain the floor's desired appearance. If the floor begins to show wear or lose its even matte appearance, Magic Oil Care can be applied to restore a fresh, even look. Please see the back of this brochure for application instructions of Magic Oil Care.

SEVERAL YEARS LATER: Recoat

A new coat of Magic Oil may need to be applied to your wood floor several years after the initial application. This will ensure that you do not wear down the current application of Magic Oil to bare wood, causing expensive sanding procedures. Compared to resanding, reapplication of Magic Oil is a inexpensive procedure that often can be completed in one day. We recommend that you contact a Hardwood Flooring Professional for reapplication of Magic Oil options.

MAGIC OIL CARE APPLICATION SCHEDULE

Residential — 1-2 times per year

Light Commercial — 2-3 times per year

Commercial — Once per month

*Maintenance schedule will be dependent on usage of floor
