WOOD FLOOR SPECIALISTS SINCE 1903

American Sanders began in 1903 as The American Floor Surfacing Machine Company and built the first floor sanding machine on record with the U.S. Patent Office. Over one hundred years later, American Sanders remains the worldwide leader in the design and production of wood floor sanders and edgers for the professional contractor as well as the do-it-yourselfer. Today we continue this heritage with innovative equipment designs focusing on performance, reliability and user ergonomics while furthering our investments in state-of-the-art product testing facilities, quality enhancement processes and upgraded production methods.

Being the leading manufacturer of wood floor sanders for more than a century takes dedication, long hours, commitment, and most of all, pride in what we do.

The American Sanders Pride program is a formal recognition of our commitment to design, performance, reliability and customer service.

We take that responsibility seriously and are committed to continuously improving upon our innovative equipment design, performance, reliability and customer service.

The Pride Program Includes: *

60-Day Satisfaction Guarantee

Correct or replace an American Sanders machine with unsatisfactory defect in workmanship or parts.

New Product Registration System

A simple process to register a machine, give feedback, and get FREE swag.

Quality Management System

Comments, questions or concerns get response within two business days.

Benefits For The Contractor: *

Be a part of improving your industry

Sharing your experience, good or bad, helps us to understand what is important to you on the job site, and to learn where we could make improvements.

Have confidence in your sanding machines

We have a commitment to design, performance, reliability and customer service so that you can have confidence in your machines on the job site.

AMERICAN SANDERS TRAINING FACILITY
CHARLOTTE, NC

4 The American Sanders Training Program is led by Daniel Boone. A second-generation wood floor contractor, Daniel has over 45 years of experience in the wood floor industry, working first for his father and then establishing his own business in 1982. As the former Technical Director at the National Wood Flooring Association (NWFA), Daniel created a national curriculum for the wood flooring education program, and he has trained over 10,000 students around the world.

American Sanders *Sand & Finish Schools* provide thorough hands-on training courses designed to enhance your current skill set as a wood floor craftsman. Whether you are an experienced craftsman or just getting started as a sand and finish contractor, the American Sanders training classes can help you become the best that you can be.

American Sanders *Machine Maintenance & Trouble Shooting School* trains contractors on preventative maintenance and minor repairs on edgers and belt sanders. Maintenance on other machines can be covered as requested. This class is intended for wood floor contractors who maintain their own equipment, or want to learn how to make their equipment provide optimal service for many years.

American Sanders *Service Technician* classes cover a range of repairs applicable to the American Sanders line of equipment. This class is reserved for technicians currently employed by our dealers. In order to attend this school, your application must be approved by your American Sanders sales representative.

Learn more about our American Sanders Training Schools.

WORLD-RENOWNED BELT & DRUM SANDERS

Legend Belt Sander

The new standard in belt sanders.

- Enhanced chassis system
- Drum pressure adjustment from 50 to 90 lbs.
- 4hp (6.5hp peak) continuous duty motor
- Optional colors, accessories, and custom ordering available

SEE ALL PRODUCT DETAILS ON PAGE 8

FloorCrafter Belt Sander

The benchmark machine for many years: a versatile, high performance 8" belt sander.

- Precision balanced drum
- Patented one-tool leveling adjustment
- Recessed drum door
- Patented dolly transport system
- "Feathering" drum control handle

American 12 Drum Sander

Most aggressive and productive 12" drum sander available for gyms and ballrooms.

- 4HP (1ph) motor or 10HP (3ph) motor
- Cast aluminum frame
- Totally enclosed dust-free motor
- Removable dust pipe
- Urethane wheels
- "Feathering" drum control handle

American 8 Drum Sander

Powerful and aggressive 8" drum sander.

- 4HP (1ph) motor
- Dynamically balanced drum
- Cast aluminum frame
- Totally enclosed dust-free motor
- Removable dust pipe
- Urethane wheels
- "Feathering" drum control handle
- Drum pressure control

EZ-8 Drum Sander

8" drum sander, easy transport for small jobs and challenging access.

- 1.5HP/120V motor
- Removable dust pipe
- Detachable handle
- Expandable or clamp style drum
- No-slip cogged belts
- Cast aluminum frame and housings

Legend 8" BELT SANDER

PERFORMANCE ENGINEERING

This innovative machine delivers aggressive cutting capability and smooth operation, resulting in exceptionally flat floors.

Cuts Fast & Flat

Powerful 4HP (6.5HP Peak) Continuous Duty Motor

Easy Drum Pressure Adjustment

- 5 Settings (50, 60, 70, 80, 90 lb)
- Tune your machine for specific job site conditions or personal preference

Enhanced Chassis Suspension System

A balanced system of compression and extension springs provides superior stability, helping to eliminate side cutting, wave, and chatter on damaged and uneven floors.

Dual Mode Feathering Handle

Drum and Top Roller System

Advanced engineering provides an aggressive cut while requiring minimal operator maintenance.

- "V" Crown, dynamically balanced upper roller
- Precision balanced drum with cooling slots
- Simple, fast, precise paper alignment
- Vented paper door facilitates dust collection, reduces buildup on upper roller

Laser Guide for Enhanced Sight Lines

JOB SITE EFFICIENCY

From monitoring critical functions, reducing dust in the work space, simple and effective machine set up, to easily transporting the machine, the Legend helps to reduce the time and energy on any typical job site.

Monitor Critical Functions

Digital Run-Time Meter

Digital Volt Meter

On-Board Circuit Breaker

Transport Your Machine With Care & Ease

Onboard Transport Dolly

- Can be left on machine without fear of rubbing the wall
- Remove or attach in seconds

Multi-Use Transport Handle

- Carry the motor or carry the frame

Tool-Free Quick Release Motor Mount

- Just Pull and Rotate two D rings to loosen the motor in seconds

Optional Stair Climber Dolly

- One-person transport of the machine and motor up and down stairs

Control Center with Intuitive Power Switch and USB Charge Port

Ergonomics To Reduce Fatigue

Optional Adjustable Height Handle:

Adjustable height handle provides ergonomic comfort to reduce fatigue for operators of all sizes.

- 4 Settings
- Lowest Setting: 33.6" from floor
- Highest setting: 37.9" from floor

Exceptional Functionality

Dust-Free Bag Connection

- Check valve connector prevents dust release when bag is disconnected
- Also accepts drawstring bag or vacuum hose
- Dust tube rotates freely or can be locked in place

Dual Poly-V Belts

- Reduced vibration
- No need to loosen belt tension in between jobs

Tool-Free Belt Tension Release

Bright White LED Work Light

Reduced Noise Level

Onboard Tool Kit

CREATE YOUR CUSTOM *Legend*

In addition to the legendary performance engineered into this machine, you can order a Legend to satisfy your personal style and your individual needs.

Color Choices

- Standard machine is black with maple wood handles
- Choose Red, White, Blue, Gold or Black components
 - Frame
 - Control Handle Cover
 - Drum Paper Door
 - Belt Cover
 - Light Cover
 - Laser housing
- Choose Maple, Red Oak, or Walnut wood handles
 - Control Handle
 - Lifting Handle
- Mix and match colors and woods

Wood Handle Options [Walnut, Maple, or Oak]

Optional Stair Climber Dolly

A functional dolly to allow one person to move the motor and the frame up and down stairs.

Order your custom Legend belt sander online at americansanders.com/Legend. You can order a base machine or configure a custom machine with color choices and optional accessories.

- Select colors for each component
- Select handle wood type
- See 360° view of your custom machine
- Confirm your order summary & click "Order now"

American Sanders will call to confirm your order. Your custom machine will ship directly to you. Machines and accessories can also be purchased at your local American Sanders distributor.

Optional Adjustable Height Handle

Adjustable height handle provides ergonomic comfort to reduce fatigue for operators of all sizes.

- 4 Settings
- Lowest Setting: 33.6" from floor
- Highest setting: 37.9" from floor

Epoch Rotary Sander

Dual speed, multi-purpose machine provides versatility and high performance productivity.

- High torque 60-amp DC-rectified motor
- Dual speed functionality
- Adjustable 25-lb weight kit
- Bright, flexible LED light
- Dust control ready
- Heavy duty 6" wheels
- Exclusive tilt-back wheel system

Epoch HD Rotary Sander

230V Dual speed, multi-purpose machine provides versatility and high performance productivity.

- 230V, 2.5HP motor
- 16" and 20" models
- Dual speed capability
- Adjustable 25-lb weight kit
- Bright, flexible LED light
- Dust control ready
- Heavy duty 6" wheels
- Exclusive tilt-back wheel system

RS-16 & RS-16DC Rotary Sander

Lightweight rotary sander that is easy to use, even on aggressive sanding jobs.

- Powerful, 1.5HP motor
- Dust control ready model
- Smooth and rugged steel planetary gear systems
- Transparent safety plug with light
- Grip face pad driver supplied

1600DC Rotary Sander

Versatile, low maintenance rotary machine.

- Powerful, fully enclosed 1.5HP motor
- Smooth operation
- Dust control ready
- Gray, non-marking transport wheels
- 5-Year warranty

FM-2000 Floor Maintainer

Versatile, low maintenance rotary machine.

- Use on multiple floor types
- For sanding, polishing, scrubbing, and grinding
- 20" pad driver
- 360 Degree non-marking bumper
- Ultra smooth power transmission

POWERFUL VERSATILE ROTARY SANDERS

Related Products

See Rotary Head Options On Page 28

The Epoch line of rotary sanders are dual-speed, multi-purpose machines designed to meet the many demands of wood floor sanding. Used on low speed, the machines can be used as a traditional buffer for intercoat abrasion, fine finishing and polishing, or stain application. Used on high speed with the HydraSand, the Epoch acts as a planetary sander, abrading and flattening floors.

ORBITAL SANDERS FOR FINESSE & PRODUCTIVITY

The random-orbital sanding action of the OBS-18 and OBS-18DC removes the scratch patterns left by drum or rotary sanders, leaving a smooth, flat floor ready for refinishing. At 3,600 orbits per minute, the OBS-18 sands faster than any other orbital sander available. With torque-less operation for enhanced operator comfort, the OBS-18 and OBS-18DC are perfect for interim "screen and recoat" and fine finish sanding jobs.

3DS Orbital Sander

Multi-disc orbital sander provides cross-grain sanding and efficient dust control.

- Powerful, fully enclosed 3HP motor
- On-board vacuum
- Convenient lifting handle
- Padded operator's handle
- Uses three 8" sanding discs

OBS-18 Orbital Sander

Random-orbital sander removes scratch patterns, leaves a smooth floor ready to finish.

- 3,600 Orbits/min
- Totally enclosed, fan-cooled motor
- Heavy duty cast aluminum frame
- Transparent safety plug with light

OBS-18DC Orbital Sander

Random-orbital sander with on-board dust containment system.

- 3,600 Orbits/min
- Totally enclosed, fan-cooled motor
- Heavy duty cast aluminum frame
- Independent dust pick-up fan (DC)
- Dust containment ready
- Transparent safety plug with light

EZ-Sand Orbital Sander

Compact triangular design perfect for tight spaces and easy transport.

- Three-motor, triple sanding heads
- Self contained dust containment or attach to external vac
- Modular design for storage and transport
- Dust skirt

**NEW
PRODUCT**

Compass by American Sanders is a brand-new lightweight machine designed around sanding stair treads and risers. The Compass delivers aggressive sanding performance in a uniquely compact and versatile package.

• **For Stair Edging.**

- Rotating handle and balancing wheel make sanding stair treads and risers a breeze
- Optimized cut angle greatly reduces sanding time on risers and treads
- Bottom slip plate allows for stability and maneuverability on stairs

• **For Floor Edging.**

- Compact, lightweight package ideal for tight spaces
- Leaves about a quarter-size area in the corners to scrape
- Low profile nose allows reach under toe kicks
- Removable caster assembly provides added stability for floor edging

• **For Productivity.**

- 1/2 HP Motor
- 5" Hook & loop paper
- Vacuum ready, excellent dust pickup
- Integrated light strip provides excellent work visibility
- Glass-reinforced nylon construction makes this machine strong and durable

Super 7R Edger

Edger of choice for over 50 years.

- 120V, 1HP motor
- 2800 RPM
- Precision-balanced 7" disc
- Vac ready dust control

B-2+ Edger

Two-Speed motor offers versatility.

- 2 speed, 1 HP motor
- 2800 RPM, 3200RPM
- Precision-balanced 7" disc
- Vac ready dust control

EZ-E Extension Edger

Ideal for hard to reach areas.

- 8" or 13" interchangeable sanding deck
- 2800 RPM with 7" disc (8" ext.)
- 3200 RPM with 5" disc (13" ext.)
- Tool-free caster adjustment
- Vac ready dust control

**POWERFUL
EDGERS BUILT
WITH PRIDE**

The EZ-E Extension Edger is the perfect tool for tackling the most difficult edging challenges, including toe-kicks and radiators. Available in 8" and 13" interchangeable configurations, the EZ-E gives you the reach needed to deliver beautiful results. The EZ-E can be run with the included quick release dust bag or can attach directly to a vacuum and comes with a soft case for storage and transport.

DUST CONTAINMENT FOR CLEAN JOBSITES

AVAC 12-P Vacuum

High-end filtration, compact size.

- 120V, 2-stage motor
- 131 CFM suction
- Large, 12-gallon capacity
- Exceptional filtration
- Use with wide range of machines or floor wand

AVAC 18 Vacuum

High performance mid-size dust containment system.

- Two 800-watt, dual stage motors
- Robust 18-gallon canister
- Clear lid to monitor tank
- Reusable or disposable filters
- H.E.P.A. filter available

AVAC 26 Vacuum

High performance dust containment system.

- Three 800 watt, dual stage motors
- 26-gallon capacity
- Dual 2" intake ports
- Clear lid to monitor tank
- Reusable or disposable filters
- H.E.P.A. filter available

AVAC Q-10 Vacuum

Rugged, lightweight back pack.

- Great for screen and re-coat applications
- Rotary or orbital sanders
- Includes 5 stage filtration when H.E.P.A. installed

NEW PRODUCT

DC400L Dust Containment System

Designed for full isolation of work debris, the DC400L is an excellent choice for dust containment on wood and concrete projects. The HEPA level triple filtration and longopac bagging system meet the requirements of the OSHA silica dust rule (29 CFR 1926.1153) for concrete floor polishing. Dual motor suction provides powerful pick-up in an efficiently sized machine.

- Advanced Filtration:
 - 3-Stage HEPA filtration
 - Meets OSHA silica rule requirements
 - 99+% filter efficiency
 - Switch-operated reverse pulse filter cleaning system
 - Longopac format allows for near-continuous use without dust exposure
- 2 motors provide strong pickup
- Efficient size for big machine performance
- Non-marking over-sized rear wheels
- 16-foot 3" hose

American Sander dust containment systems are designed and engineered to help professional wood floor contractors keep the job site clean and their customers happy. All of these units provide optimal performance in each size category and are built to last for years. From the high efficiency Q-10 backpack to the world renowned AVAC 26 capable of collecting dust from two machines, American Sanders can hook you up for a clean job site.

COATINGS THAT INHIBIT THE GROWTH OF BACTERIA ON THE FLOOR SURFACE

AMP™ AntiMicrobial Protection is a chemical technology in TimberGuard™ floor coatings that inhibits the growth of bacteria.

Bacteria on floors is a common source of odor and stains. **AMP** is an advanced technology within the floor coating that inhibits the growth of stain and odor causing bacteria on the floor surface.

Inhibits The
Growth Of Bacteria

Continuous AntiMicrobial
Protection 24/7

Reduces
Odors & Stains

EPA Registered
Antimicrobial Ingredient

American Sanders **TimberGuard** floor coatings with **AMP** technology provide continuous antimicrobial protection from the moment the floor coating is dry, 24/7 for the usable life of the coating. No chemical mixing or non-standard floor preparation is required. This unique application of technology inhibits the growth of odor and stain causing bacteria on a cellular level, preventing bacterial microorganisms from feeding, growing, and reproducing.

AMP ANTIMICROBIAL PROTECTION

is available in
TimberGuard, TimberGuard PRO, & TimberGuard SELECT.

See these product descriptions on page 25.

The application of floor coatings with AMP technology is not a substitute for normal cleaning practices.

PROFESSIONAL WOOD FLOOR COATINGS

COMMERCIAL & RESIDENTIAL FLOOR COATINGS

TimberGuard wood floor coatings are water-based finishes with selections for high-traffic commercial to light-traffic residential applications. All TimberGuard coatings are low VOC formulas, provide quick dry times, and are water soluble for easy cleanup.

TimberGuard Pro

Premium protection with industry leading durability.

- 2K urethane formula
- Colorless
- Resists scuff marks and scratches
- Ideal for commercial or high-traffic residential

Available Sheens:
Super Matte, Satin, Semi-Gloss, High Gloss

TimberGuard

Excellent on high traffic floors.

- 1K urethane formula
- Colorless
- Excellent durability

Available Sheens:
Super Matte, Satin, Semi-Gloss, High Gloss

TimberGuard Select

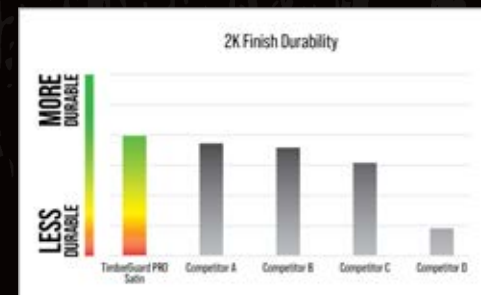

Ideal for residential and light commercial floors.

- 1K urethane/acrylic formula
- Excellent flow characteristics
- Colorless
- Excellent durability

Available Sheens:
Super Matte, Satin, Semi-Gloss

CLEANERS

The TimberGuard line of floor cleaners is formulated for all wood floor cleaning tasks ranging from daily maintenance to removing all contaminants in preparation for a re-coat.

TimberClean

All purpose wood floor cleaner.

- Removes dust and light soils
- Use with auto scrubber or mop
- Dries quickly
- No residue

TimberClean Deep Scrub

Industrial grade cleaner.

- Cleans aggressively
- Can be used with an automatic scrubber
- Evaporates quickly to protect wood surfaces
- Essential for re-coat applications

TimberClean Daily

A daily spot cleaner.

- Cleans without damaging the finish
- Does not penetrate wood
- Leaves no residue
- Environmentally preferred

TimberClean Mop Kit

Daily cleaner with mop.

- Safe on wood, laminate, and other hard surfaces
- Complete floor maintenance kit

SEALERS & BONDING AGENTS

TimberGuard sealers and bonding agents are optimized for sealing or re-coating of all wood floors and water-based coatings. These products are an essential part of achieving a premium wood floor finish.

TimberSeal

Optimizes adhesion, protects against tannin bleed.

- Specially formulated to prevent tannin bleed
- 34% solids
- Flows easily and provides a solid build layer
- Seal and finish in one day

TimberBond

For dust-free re-coating.

- Ensures good bond between finish layer and the floor
- High coverage rate
- Dries quickly, saving time

DISINFECTING & CLEANING WOOD FLOORS

Keeping wood floors clean not only contributes to longevity of the floor finish, it also contributes to having a clean and healthy household. Disinfecting wood floors is simple and EFFECTIVE using the right products.

Disinfecting the floors is a great added value service to offer your customers.

DISINFECTING WOOD FLOORS

Pioneer Eclipse™ NOVA™ is a concentrated germicidal disinfectant, cleaner and deodorizer that leaves behind a subtle Fresh lemon scent.

CLEANING WOOD FLOORS

TimberClean products are effective all-purpose cleaners safe to use on all wood floors finished with polyurethane or acrylic coatings.

TimberClean Daily (712) is a ready-to-use version that comes in a convenient spray bottle.

TimberClean (713) is a concentrate to mix with just water for everyday cleaning.

CLEANING & DISINFECTING CHEMICALS

TimberClean
All purpose wood floor cleaner.

- Removes dust and light soils
- Use with auto scrubber or mop
- Dries quickly
- No residue

TimberClean Daily
A daily spot cleaner.

- Cleans without damaging the finish
- Does not penetrate wood
- Leaves no residue
- Environmentally preferred

Nova Disinfectant
Germicidal disinfectant.

- Effective against SARS-CoV-2
- Broad spectrum germicidal, kills hepatitis B
- Bactericide, fungicide, mildewstat, virucide
- Effective cleaner for everyday use
- Pleasant lemon fragrance

CONCRETE RESTORATION

Transform those raw concrete patios, garages, and basements with a high gloss polished floor. It's a simple process using the Epoch rotary sander with a sequence of diamond discs to repair, prep, and then polish to the level of gloss desired.

Restoring and polishing concrete can be an additional revenue source using the machine and the skills of a wood floor contractor.

CONCRETE CHEMICALS & TOOLS

HardCore
Densifying Treatment

- Increases durability
- Prolongs shine
- Improves stain resistance

LockOut
Hard Floor Protector

- Hardens & protects floors
- Superior stain protection
- Burnish to a high gloss shine
