

Kährs

HARDWOOD, LVT, & HYBRID FLOORING

LOOK BOOK

1857

With a history that dates back to 1857, Kährs of Sweden is the oldest wood floor manufacturer in the world still in operation. For decades, Kährs has been a global leader with innovations that include the world's first patented engineered wood floor in 1941; the world's first water-based finishing system in 1984; and the first ISO 14001 environmental management certification in 1997.

2022. Kährs introduces a new PVC-free, hybrid flooring called "AWARE"

1857. Kährs founded in the small town of Nybro, Sweden

1997. ISO 14001 Environmental management certification

2021. Kährs introduces a new generation of wood floors: Kährs Life

1984. Introduced first solvent-free finish

2000. Woodloc®, a world innovation - first glueless joint

1941. Invention of the multi-layer engineered wood floor

1958. The first factory-finished floor

2010. Woodloc® 5S, the next generation wood joint

QUALITY IN WOOD SINCE 1857

Wood is the most eco-friendly, beautiful and versatile flooring material there is. Few materials can add as much warmth and atmosphere as wood. It softens the most minimalistic designs, while accentuating the mood of a more traditional interior. While trends may come and go, quality and true style never go out of fashion. That's why a wood floor from Kährs will always be the perfect choice.

SEASONS GREETINGS

Compared to a traditional solid wood floor, our patented construction is 75% more stable. A Kährs floor resists warping, buckling and cracking, even as temperature and humidity change throughout the seasons. The construction creates a perfectly balanced wood floor that can tolerate even the most dramatic climate changes, making our wood floors the perfect partner for underfloor heating.

GAP FREE

When Kährs launched Woodloc® in 2000 – the first glue-free joint system in the world – it revolutionized the wood flooring industry. This ingenious joint system locks the boards together mechanically, creating a completely gap-free floor.

THE EASIEST INSTALLATION

Kährs floors are easy to install thanks to the ingenious Woodloc® joint. The boards lock together mechanically, with virtually invisible joints, providing perfect results, fast! The superior fit also enhances the floor's performance and durability.

MORE THAN A BEAUTIFUL SURFACE

Whichever surface treatment you choose for your Kährs floor, you can be sure that it will both enhance and protect the natural beauty of the wood. All Kährs surface treatments are naturally free from solvents, formaldehyde and isocyanate. They also make the floor really easy to clean and maintain.

ENDLESS DESIGN VARIATIONS

Whatever the size of room or interior style, there's a Kährs floor that will enhance the space. Our wood floors come in many wood species, sizes, patterns and finishes.

UNDERFLOOR HEATING

Kährs wood floors are ideally suited to underfloor heating. Please visit www.kahrs.com for detailed installation and operating instructions.

LEED

Many of Kährs products contribute to LEED (Leadership in Energy and Environmental Design) points on construction projects. To find out more, see our LEED Information sheet included in this book. If you have questions or would like further information, please contact your local Kährs representative or visit www.kahrs.com.

SANDS LIKE A SOLID

The Kährs multi-layer construction uses hardwood down to the joint with fast-growing timber below. It can be refurbished in exactly the same way as a solid floor.

THE FINISHING TOUCH

It's in the detail that you'll see the level of skill and craftsmanship that goes into every product made by Kährs. Choose from a wide range of moldings and accessories that are designed to add the perfect finishing touch.

DESIGNED WITH A CONSCIENCE

Choosing a wood floor is a great way of being environmentally responsible. By choosing a Kährs floor you are making a smarter, greener choice. Kährs is one of the oldest producers of wood flooring in the world – and the most innovative. During the last century, our many inventions have transformed the production of wood floors globally. Throughout this time we have continued to capture the beauty and expression of wood. We combine its natural character with cutting edge innovation to produce the highest quality wood flooring.

GREEN PRODUCT

The multi-layer wood floor that we invented in 1941 proved not only to be the best and most stable flooring on the market; it was also the most environmentally friendly construction. It optimizes the use of the raw material, is made from renewable resources, and is recyclable.

LESS RAW MATERIAL

Our multi-layered construction allows us to use the raw material more effectively, utilizing the whole log.

SOLVENT FREE

We constantly strive to find the most environmentally friendly, solvent-free stains and finishes. Also, our surfaces are easy to keep clean, without the need to use harsh chemicals.

GREEN PRODUCTION

Our production process is designed to have minimal impact on the environment. Over the years, Kährs has introduced a number of manufacturing and flooring innovations that have enabled a more responsible, green production. We work hard to reduce our impact on nature in terms of air quality, water discharge and noise control, to the benefit of our employees and neighbors.

HEALTHY PRODUCTION HEALTHY FLOOR

In 1984, Kährs was the first wood flooring manufacturer to utilize a water-based finishing system to reduce emissions. Kährs meets European E1, E0 and California Air Resources Board – Airborne Toxic Control Measure (CARB-ATCM) Phase 1 and 2 standards.

NOTHING IS WASTED

At our production plant in Nybro nothing goes to waste. The portion of the logs that we're not able to use for floor production are turned into biofuel. Some of this fuel is used to heat our own facilities. The rest goes to a local energy company. About 45,000 people in our neighborhood enjoy the warmth of our recycled wood.

A GREEN MINDSET

Environmental, Social, and Governance (ESG) and Corporate Social Responsibility (CSR) matters impact the communities where Kährs operates. We have made a public commitment to incorporate these ethical principles into the way we behave locally and globally.

Our commitment to the environment starts with the selection of the best raw material. This is achieved with the support of our 3000+ timber suppliers who share in our commitments.

PLANTING AHEAD

Kährs is working with local, national and global organizations to ensure the forest stock is sustainable for generations to come. In Sweden, the total forest volume is 60% larger today than it was in the 1920's. Kährs is working with leading global programs, reforestation programs and leading environmental groups to support globally responsible forestry.

ENVIRONMENTAL STANDARDS

Since the 1990's, Kährs' operations have been environmentally and quality certified. Many of Kährs' products contribute to LEED (Leadership in Energy and Environmental Design) points on construction projects.

KÄHRS PLANET POSITIVE JOURNEY

We have identified three major challenges that are highly relevant to our business:

-  **1. Climate Change**
-  **2. Resource Scarcity**
-  **3. Equality**

As a response to these challenges impacting Kährs' business, we have identified three corresponding focus areas to help us fulfill Kährs sustainability vision:

-  **Climate & Environmental Protection**
-  **Designed with a Conscience**
-  **Responsible Business**

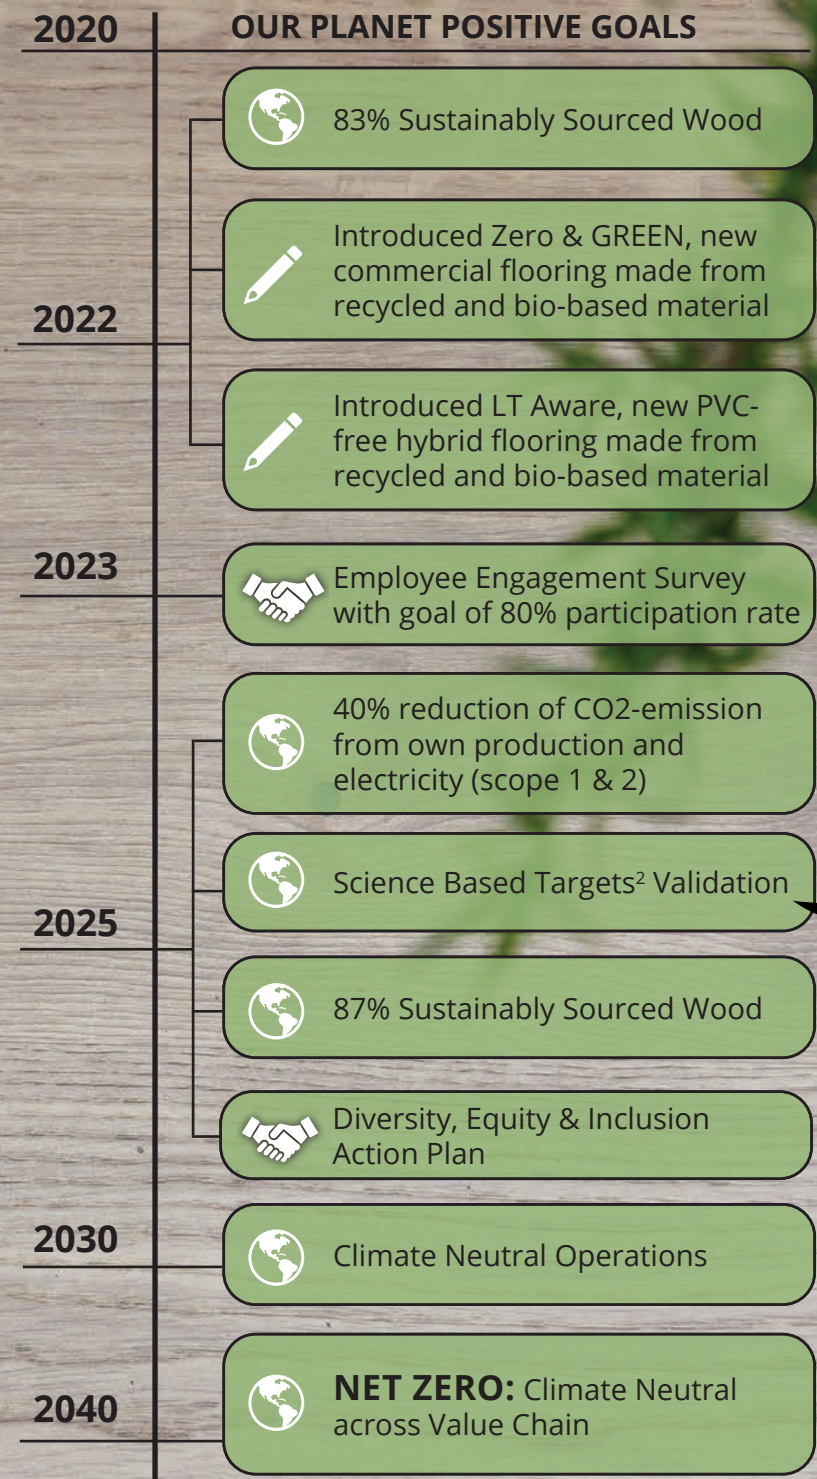

- OUR COMMITMENTS**
- Reducing climate footprint
 - Net Zero Footprint by 2040
 - Transforming into a circular business
 - Regenerating resources & supporting biodiversity

- OUR COMMITMENTS**
- Creating a portfolio with sustainable floors
 - Promoting sustainable consumption

- OUR COMMITMENTS**
- Becoming a sustainable business across all stakeholders
 - Diversity and Inclusion Plan
 - Offering transparent information on our products

READ MORE AT WWW.KAHR.S.COM

- MORE ABOUT OUR WOOD FLOORS**
- **100%** of our wood floors produced in Nybro are climate positive.
 - **200** of our wood floors have the Nordic Swan Ecolabel, the most respected and rigorous green label in the Nordics.
 - **140,000** tons of CO2 is yearly stored in installed wood floors from Kährs. This is equal to the amount of CO2 that 15,500 people consume every year.
 - **95%** of all the energy we are using in production is renewable.
 - **EPDs** are available for the majority of our wood product portfolio.

Kährs commits to calculate emissions according to an international recognized standard (SBT) and align with the Paris agreement to limit global warming by 1.5°C.

SCIENCE BASED TARGETS

Kährs is the 2nd flooring company to commit to Science Based Targets.¹

- MORE ABOUT OUR RESILIENT FLOORS**
- **100%** renewable energy used at our production site in Finland
 - **850 tons** of carbon footprint reduction thanks to renewable energy use
 - **EPDs/HPDs** available for all products
 - **First PVC-free homogeneous sheet** created by Upofloor (now Kährs) in 2014.

DID YOU KNOW?
WOOD IS A RENEWABLE RESOURCE & STORES CARBON DIOXIDE.

Our overarching vision to how we approach business. This vision includes regard for the climate, greenhouse gas emissions, ethics, justice, & human rights.

¹As of November 2021

OUR PORTFOLIO

Today, Kährs wood and LVT floors can be seen in residential and commercial interiors all over the world. Fun fact: there is over 500 million square feet of Woodloc® flooring installed globally!

KÄHRS FLOOR PLANNER

Selecting a floor is one of the most important decisions in terms of interior design. To help consumers and architects in their buying decision, we've launched the new Kährs Floor Planner, a digital web-based room visualizer tool with state-of-the-art AI technology.

WHAT'S NEW IN THE UPDATED TOOL

- **AUTOMATIC FLOOR DETECTION FOR IMAGE UPLOADS**
State-of-the-art AI technology automatically detects the floor in uploaded images, making the visualization experience quick and user-friendly for everyone.
- **ENHANCED MOBILE EXPERIENCE: VISUALIZE ON THE GO!**
Pull up the Floor Planner on your mobile device, choose "upload image," and take a picture directly on your phone.
- **EASY DOWNLOAD FEATURE**
With one click, download your final image from the Floor Planner.

LEED INFORMATION

The **U.S. Green Building Council's LEED® green building program** is the preeminent program for the design, construction, maintenance and operations of high performance green buildings. Learn more at usgbc.org/LEED. Many of Kährs products contribute to **LEED (Leadership in Energy and Environmental Design) points** on construction projects. Please contact your local Kährs representative for the latest LEED information or visit www.kahrs.com.

KÄHR'S WOOD AND LT PRODUCTS - POTENTIAL LEED CONTRIBUTION

LEED v4 Building Design and Construction

MR | Building Product Disclosure: Environmental Product Declarations

EPD available for wood floors produced in Nybro, Sweden (Tres, Founders, Classic Nouveau, Beyond Retro, Texture, Lux, Capital, Harmony, Sand, European Renaissance, American Naturals, European Naturals, Scandinavian Naturals, World, Småland), EPD available for wood floors produced in Satalung, Romania (Ground Collection), EEPDs available for Click, Dry Back, and Loose Lay Luxury Tiles floors

MR | Building Product Disclosure and Optimization: Sourcing of Raw Material

Third-party verified corporate sustainability reports (CSR), which include environmental impacts of extraction operations and activities associated with the manufacturer's product and the product's supply chain, are valued as one whole product for credit achievement calculation.

FSC® certified products are available on demand via special request, subject to material availability.

This credit contains two options, with the second focused on "leadership extraction practices." To receive the credit, a project must use "at least 25%, by cost, of the total value of permanently installed building products." For wood products, the credit requires products "certified by the Forest Stewardship Council® or USGBC-approved equivalent."

Building Product Disclosure: Material Ingredients

FloorScore® Certification: Kährs Avanti, Kährs Canvas, Kährs Life, Kährs Original, Kährs Aware, Kährs LT Dry Back, Kährs LT Loose Lay, Kährs LT Click, Kährs QuietStride 2.0

IEQ | Low-Emitting Materials

Flooring - At least 90% of all flooring, by cost or surface area, must meet the VOC emissions evaluation or inherently non-emitting sources criteria.

Eco+ Underlayment - UL GreenGuard GOLD Certified

FloorScore® certified flooring products contribute to Low Emitting Material credits under the LEED v4 rating systems and other systems such as WELL, BREEAM, Green Globes, Collaborative for High Performance Schools (CHPS), California Section 01350, and other sustainable building requirements. Floors holding the FloorScore® logo are certified as contributing to indoor air quality. See above "Building Product Disclosure: Material Ingredients" section for Kährs products that hold a FloorScore® certification.

KÄHRS FLOORING GUIDE

Kährs offers a wide range of products with different finishes to meet the most diverse needs. All Kährs finishes are created by nature, engineered with the latest technology and produced with great respect for the environment.

SURFACE TREATMENT

- HIGH GLOSS FINISH**
 The high gloss finish gives your floor a shiny, polished look that enhances the beauty of the wood species you have chosen. High Gloss finish is durable and easy to maintain.
- SILK MATTE FINISH**
 Our silk matte finish complements the wood's character by emphasizing its natural structure. Making the floor durable and easy to clean, without concealing the woods natural luster.
- MATTE FINISH**
 Our matte finish creates the impression that the floor is made from untreated bare wood. The soft to touch natural surface is incredibly tactile and pleasing underfoot. Matte finish is durable and easy to maintain.
- NATURE OIL**
 Kährs oil finish reinforces the natural look and is incredibly tactile. The oil brings out the fine structure and grain of the timber yet adds depth to the natural wood tone. Kährs floors treated with oil are easy to maintain.
- ULTRA MATTE FINISH**
 Our ultra matte finish gives the look and feel of untreated, newly sawn timber. This innovative surface treatment is non-reflective, effectively enhancing the color of the floor while giving it a smooth, yet strong shield against wear and tear.

DESIGN FEATURES

- STAINED/SMOKED**
 Stains are used to further enhance the natural color tones of the wood – from the palest white and whisper greys to shades of rich mocha and charcoal. Some designs have also been smoked to enhance the color of the design.
- BRUSHED**
 Brushing the surface highlights the natural structure of the grain and accentuates the texture. Brushing is usually accompanied by other surface treatments, such as a beveled finish and a color stain or glaze.
- HANSCRAPED**
 Handscraping adds to the texture of a floor for a somewhat distressed and worn appearance typical of very rustic designs.
- BEVELED EDGES**
 Beveled edges add a touch of drama to a floor. Beveled styles vary from a micro-bevel – a slight accentuation of the edge using sandpaper – to a more dramatic, stronger bevel. In each style both long and short edges are beveled.

GRADING

Our grading system has been designed to make the product selection process easier and more visually driven through the introduction of five clearly distinguishable grades. Users will now be able to narrow down their product selection by grade to achieve a specific interior design theme.

- CALM**
 Minimalistic, clean and calm. The Calm grade floors are produced from our cleanest boards. They feature planks with a uniform appearance with small variation in grain and tone. They may contain small knots.
- VARIATION**
 Subtle character with variation. The Variation grade floors are characterized by subtle variation in color, tone and pattern. They may contain small knots.
- LIVELY**
 Lively and rustic character. Lively grade floors feature dramatic graining, gnarls and knots. They boast greater color variation and have a more lively and rustic character.
- DYNAMIC**
 Dynamic, warm and rustic character. Dynamic grade floors are made from boards with knots and cracks that give them a lively and dramatic, yet warm, character. They feature a broad variety of color tones.
- EXPRESSIVE**
 Bold and expressive statement. The Expressive grade floors are made from boards with dramatic cracks and powerful knots which also feature a wide variety of color tones.

DESIGN

- 1-STRIP DESIGN**
 The surface of a 1-strip board is sawn in one piece. This emphasizes the natural beauty and accentuates every detail, from variations in color and grain, to individual knots.
- 2-STRIP DESIGN**
 The wear layer of this design is two strips wide. The strips are individually selected and arranged to give the floor its own unique character which complements all room styles.
- 3-STRIP DESIGN**
 With a wear layer that's 3-strips wide, these floors offer endless decorating opportunities and look particularly stunning in smaller spaces. Creating a linear effect, a 3-strip floor gives the illusion of a larger, more open space.
- PATTERNED DESIGNS**
 Dutch Pattern
 Chevron
 Combining traditional looks with modern styling.

EASY TO LOVE, HARD TO DAMAGE

The Kährs Life collection bridges the gap between high quality wood flooring and functional vinyl flooring. With a real wood veneer, stable HDF core, and a commercial finish, these floors are beautiful, functional, and made for everyday life.

A FINE COLLECTION OF FLOORING

With world renowned quality and flexibility, Kährs Avanti presents our most popular wood species and gradings paired with popular colors and styles.

THE FOUNDATION OF QUALITY

The Kährs Original range has grown into our largest and most popular line of wood floors. Available in a wide variety of wood species and finishes – and inspired by our Scandinavian roots – every floor is a true classic.

SUPREME QUALITY AND CRAFTSMANSHIP

Using time-honored skills, Kährs combines unrivaled hand-made craftsmanship, outstanding design, and the latest production and surface techniques to create floors of distinction. Floors in this collection come to life in an array of designs and finishes, all united by striking, exclusive looks and absolute attention to detail.

PVC-FREE, DURABLE FLOORING

The Aware Collection is a bio-based, natural, hybrid floor designed to withstand family-life and the wear and tear of commercial applications, all while offering the style, beauty, and feel of a wood floor.

DESIGNED TO LAST

Kährs Luxury Tiles are floors designed for everyday life. They offer the beautiful and natural appearance of wood and stone, while providing all the benefits, resilience, and easy maintenance of modern flooring technology.

FOUNDERS COLLECTION

OAK STURE

FOUNDERS COLLECTION

The Founders Collection pays tribute to the pioneering founding family members behind Kährs. A heavily brushed, handscraped surface, enhanced by a Nature Oil finish, showcases the grain and texture of the wood – reflecting the masters' dedication to preserving the natural beauty and craftsmanship of wood floors.

BEYOND RETRO
COLLECTION

NEW BEYOND RETRO COLLECTION

INSPIRED BY THE PAST, DESIGNED FOR THE FUTURE.

The new Beyond Retro Collection celebrates the combination of classical and modern design elements, with a sense of authenticity, warmth and modernity. The design of each floor, featuring unique stains with a warm, deep, silky, velvet and ultra-matte expression, is based on Scandinavian interior trends seen between the 1940s and 1970s. With the help of the Kährs archives in Sweden, which document our 160 years of history in wood flooring, we found the most suitable colors and styles to bring to the 21st century.

TEXTURE COLLECTION

TEXTURE NATUR

TEXTURE COLLECTION

This collection of engineered Oak floors is designed to let the raw beauty of nature speak for itself. With a focus on maintaining all the inherent features of wood, the design of Texture lies in the natural details and contrasts. Soft saw marks and a matte oil finish further emphasize the naturally occurring design details and enhance the natural character of the material.

OAK HORIZON

LUX
COLLECTION

OAK BISCOTTI

LUX COLLECTION: 6" WIDE PLANKS

The Lux Collection features floors with the look and feel of untreated, newly-sawn timber. This is achieved through an ultra-matte surface treatment. Featuring a four-sided micro bevel, these floors achieve the classic wide plank look. Biscotti, Ghost, Eggshell, and Crayon are 6" in width, while the other Lux products are 7 3/8" wide.

LUX COLLECTION | *SPECIAL ORDER*

The Lux Collection features floors with the look and feel of untreated, newly-sawn timber. This is achieved through an ultra-matte surface treatment. Featuring a four-sided micro bevel, these floors achieve the classic wide plank look, in colors ranging from light to dark. The innovative surface treatment is non-reflective, enhancing the color of the floor while giving it a silky, yet strong shield against wear-and-tear.

SMÅLAND COLLECTION

OAK TVETA

OAK VISTA

SMÅLAND COLLECTION

The historic Småland region of Sweden - whose name means "small lands" - is known for beautiful dense forests covering the terrain. As a tribute to Kährs' homeland, the floors in this collection are named after the historic "small lands" in the Småland region. This collection features specially selected Oak planks with extreme character, individually treated based on its unique composition of knots, graining, and cracks. The result is a lively and rich floor with a natural lustre and feeling.

KÄHR'S COMPLETE FLOORING SYSTEM FOR HARDWOOD FLOORS

Kährs offers a wide range of tools and materials to make installation easy and help achieve a perfect end result. The range includes a variety of underlayments, installation tools, and moldings, as well as maintenance products specially designed for our hardwood floors.

Please email info@kahrs.com for more information on ordering maintenance products and accessories.

MOLDINGS FOR ALL KÄHRS WOOD FLOORS

QUARTER ROUND

Conceals expansion space between the wall and Kährs hardwood flooring. Also used to transition between wood flooring and cabinetry.

Applicable Collections	Molding Dimensions	Pieces per Order	Shipment Weight
All Floors	3/4" x 3/4" x 78"	10	10 lbs

T-MOLDING

Used in doorways to blend flooring surfaces in adjoining rooms or where floors of the same thickness meet.

Applicable Collections	Molding Dimensions	Pieces per Order	Shipment Weight
All Floors	2" x 1 1/16" x 78"	5	25 lbs

WALL BASE

Provides an elegant, traditional transition from the flooring to wall. Gives any room a more formal, finished appearance.

Applicable Collections	Molding Dimensions	Pieces per Order	Shipment Weight
All Floors	5/8" x 3 1/2" x 78"	5	25 lbs

SQUARE NOSE REDUCER

Installed against vertical surfaces such as patio doors or fireplace hearths.

Applicable Collections	Molding Dimensions	Pieces per Order	Shipment Weight
Kährs Life (7mm)	1 1/2" x 3/4" x 78"	5	10 lbs
Kährs Avanti (13mm) Kährs Original, Supreme, ID (15mm)	1 1/2" x 7/8" x 78"	5	10 lbs

OVERLAP REDUCER

Used with floating floor applications to provide a smooth transition between floors of different heights. Overlap profile allows the installed flooring to expand and contract.

Applicable Collections	Molding Dimensions	Pieces per Order	Shipment Weight
Kährs Life (7mm)	1 1/2" x 3/8" x 78"	5	10 lbs
Kährs Avanti (13mm) Kährs Original, Supreme, ID (15mm)	2 3/8" x 3/4" x 78"	5	10 lbs

THRESHOLD

Ideal for doorways or to transition between floors of different heights. Used with wood, tile or carpet.

Applicable Collections	Molding Dimensions	Pieces per Order	Shipment Weight
Kährs Life (7mm)	2" x 3/4" x 78"	10	10 lbs
Kährs Avanti (13mm) Kährs Original, Supreme, ID (15mm)	2" x 7/8" x 78"	5	10 lbs

Kährs Floor Cleaner

710804

750 ml bottle Kährs Floor Cleaner
 Can be used on both Kährs Hardwood and Kährs Luxury Tile Products.

Kährs Satin Oil

710553

No mixing required!

TO BE USED IMMEDIATELY AFTER INSTALLATION AND PRIOR TO USE OF THE FLOOR

Apply a thin layer of Kährs Satin Oil on the surface and spread it evenly with a Kährs Micro Fiber Mop or a dry cloth along the grain of the board. Polish again with a new Micro Fiber Mop head after 10-15 minutes so that no residue is left behind. 1 l of Kährs Satin Oil per 2,000ft².

Roll Weight	16 lbs	74 lbs
Roll Diameter	7"	11"
Item Number	711100	711450*
Sound Rating	IIC = 70	

- Excellent acoustical performance
- Meets requirements for Kährs Lifetime Guarantee
- Lightweight with Integrated overlap seal
- 100% high density memory foam
- Premium polyurethane construction
- Guaranteed over radiant heat
- UL GreenGuard GOLD certified
- Breathable moisture barrier;
Up to 10lbs moisture emission
- Ultra-fresh antimicrobial protection
- Free from formaldehyde, latex, PBDE's
- Made in part with natural resources
- 100% recyclable
- Eligible for LEED credits

*Special Order

Kährs QuietStride 2.0

Roll Coverage	300 ft ²
Roll Length	75'
Roll Width	48"
Thickness	1/8"
Roll Weight	120 lbs
Roll Diameter	9"
Item Number	710112
Sound Rating	IIC = 57

- Glue down, floating installations
- Enhances underfoot comfort
- Conceals minor subfloor irregularities
- Always lays flat and will not slip during installation
- Approved for 'double-stick' installations
- 92% recycled tire content and 100% recyclable
- FloorScore certified & Contributes to LEED credits
- Guaranteed over radiant heat
- Resists mold, mildew, and fungus growth

IMPRESSION COLLECTION

- SOUND REDUCTION 
- WATERPROOF MATERIAL 
- FREE FROM PHTHALATES 
- RIGID CORE 
- 5G CLICK TECHNOLOGY 
- CERAMIC COATING 
- UNDERFLOOR HEATING 

ODENWALD

KÄHRS LUXURY TILES IMPRESSION COLLECTION

CLICK 6MM PRODUCTS

Kährs Luxury Tiles are designed for everyday life. These LVT floors are waterproof, phthalate-free, and durable, made for families, dogs, dirty shoes, and high heels. With a click locking system, sound-reducing backing, and ceramic coating, these Luxury Tiles are easy to install and just as easy to enjoy.

The Impression Collection features extra large formats for extra impressive floors. Plus, thanks to registered embossing, the surface of the floor follows the knots and grain of the pattern image. Created from scans of real wood and stone specimens, these tiles create a true-to-nature experience.
